

Krupowicz Planetarium Field Trip Offerings 2010

*Located in Gaudet Middle School
1113 Aquidneck Avenue, Middletown, RI 02842*

What is in the Sky Tonight? Oasis in Space Full Dome Show

Explore the celestial view from your own backyard. *Oasis In Space* transports the audience on a startling and beautiful voyage through our universe, galaxy and solar system in search of liquid water - a key ingredient for life on Earth.

What is in the sky tonight? Cosmic Collisions Full Dome Show

Explore the celestial view from your own backyard. Take a thrilling trip through space and time—well beyond the calm face of the night sky—to explore cosmic collisions, hypersonic impacts that drive the dynamic and continuing evolution of the universe.

What is in the Sky Tonight? What is in our solar system?

Explore the celestial view from your own backyard. Discover the Sun, meteors, planets and more during this live program.

What is in the Sky Tonight? What is in our galaxy?

Explore the celestial view seen from your own backyard. Discover the myriad of objects in our solar system, what we can see in the night sky, and our place in space.

What is in the Sky Tonight? What are the reasons for the seasons?

Explore the celestial view seen from your own backyard. Discover the movement of the Earth, the reason for the seasons, and why the sun and moon appear to move in the sky in this live show.

Please inquire about other program offerings to suit your curriculum.
