

What is i-Parent?

The SchoolMAX i-Parent Module is a fully web and browser based system designed specifically to provide for parental access to student information in SchoolMAX.

i-Parent allows parents to apply for and receive passwords from the school district to access student data.. Once a parent is assigned a password, he/she will access grades, attendance, discipline, and progress reports. Information may vary depending on teacher participation in the system.

A single password and login allows parental access to all family members that are enrolled students. Account setup information will be emailed or mailed home to parents within one month of receiving a signed participation form. Middletown Public Schools reserves the right to verify all parent information. If you experience any problems or need additional information, email iparent@mpsri.net

Parents will have access to the following data about their child:

- Attendance – updated daily (each period at the high school)
- Grades—will vary depending upon teacher participation
- Discipline—updated daily
- Standards Based Report Card—updated each trimester
- Progress Reports—participation and updates vary from teacher to teacher
