## **Middletown Schools Upgrade Food Service System**

Ever wish you could to pay for school meals with a credit card or a bank transfer (direct deposit)? Well, now you can! Middletown is upgrading the food services system to support a district wide package that will include Café Prepay, an online service which will allow you to prepay for school lunches. Now, parents will no longer have to send cash or checks to school with their children, which can easily be lost in the shuffle of homework and textbooks. Parents will also be able to check their child's balance or online participation report while logged into Café Prepay. This service will begin implementation on February 26. Information about this new system will be shared with parents during the beginning of March. Please watch our web site for additional information [www.ri.net/middletown](http://www.ri.net/middletown). Find out more about Café Prepay by visiting their website at [www.cafeprepay.com](http://www.cafeprepay.com) . We hope you find this a convenient way to provide lunches for your child!
