*Superintendent of Schools*

Dear Parents,

We are inviting you to join the Middletown Public Schools' i-Parent Portal Program. This computer program is an integral part of our student information system, SchoolMAX. It will allow parents the convenience of keeping up with their child's academic progress from a home computer using an internet connection. By joining this program, you will have instant, online access to your child's schedule, attendance and discipline. You may also have access to grading data and homework assignments for each class in which your child is enrolled. (This will vary depending upon teacher participation).

**In order to participate, you must enroll in the program. Please review the brochure and guidelines included with this letter. A single completed guidelines/participation form per family must be returned to one of our schools to activate your account.** All i-Parent users are also expected to adhere to the Middletown Public Schools Computer and Internet Acceptable Use Policy found online at [http://www.mpsri.net/uploaded/documents/central\\_office/asstsuper/academictech/technology/tech\\_policies/Acceptable\\_Use\\_Policy\\_staff\\_and\\_students\\_withwebmail.pdf](http://www.mpsri.net/uploaded/documents/central_office/asstsuper/academictech/technology/tech_policies/Acceptable_Use_Policy_staff_and_students_withwebmail.pdf)

By implementing i-Parent, we hope to provide you with access to timely information. It is our hope that this initiative will prove to be an efficient communication tool for parents and the Middletown Public Schools. We are excited about using SchoolMax's i-Parent module to enhance communication and improve the quality of education for your child. If you need additional information or experience any problems, please email [iparent@mpsri.net](mailto:iparent@mpsri.net).

Sincerely,

Rosemarie K. Kraeger  
Superintendent of Schools

*In partnership with students, parents and community, the Middletown Public Schools will cultivate lifelong learning through a collaborative, student-centered, educational model in the context of real world experiences*
